Changes to the Agenda

Mr. Tower presented the Board an original copy of letters from Cushing Holdings and one from Engineering Dynamics he had faxed to the Board today. One went over, which he states was information he presented the Board at their January 28, 2008 meeting; a letter in regard to the application for subdivision approval that was denied by the Planning Board and Planning Board information he is requesting; a letter for Chairman of the Appeals Board Cabot Lyman; a letter stating that there was evidence of bias and denial of due process at the January 2, 2008 Planning Board Meeting; and a letter from Engineering Dynamics addressed to Chairman of the Planning Board Daniel Remian withdrawing its application for amendment of Gaunt Neck Subdivision.

Mr. Tower went on to say that he believes that the Town of Cushing's law firm is satisfying their business plan before serving the Town of Cushing. He recommended that they contact a firm in Bangor which serves many Maine municipalities.

Chester Knowles addressed the Board inquiring to the progress of the Wi-Fi connection. The Board did not know the status and recommended that Chester contact David Glidden.

Unfinished Business

Peter Haviland informed the Board that a recommendation had been made to hire an Electrician to install two thermostats with timed switches at the Fire Station. Selectman Haviland thought it would be a good idea due to the past problems of the electric heat being left on at a high temperature. Robert Worthing motioned, Randy Robbins seconded, to replace the old thermostats with timed ones. The motion passed.
